Information to Support School Return

There have been some reports of parental anxieties within the community with the return back to school for many families.

Below are some links that may be helpful in sharing across your networks to support consistent messages to reduce the anxieties that families may currently be experiencing.

Prince's Trust— 16-25? Not in Employment or Education ?

West Yorkshire Fire & Rescue Service & The Prince's Trust 'Team' programme – Starts Monday 21st September 2020

Within the current Covid-19 climate, it is recognised that during lockdown, young people have lost something. Whether it is the opportunity to socialise, schooling, employment, security, or the motivation and confidence needed to start to think about life after Covid19. It has become even more vital to provide an opportunity for young people to gain some focus.

That's where the West Yorkshire Fire Service can help with the rescue from lockdown and to enable young people to emerge with the skill-set they need to achieve their goals.

The 12 week 'TEAM' programme is being delivered by West Yorkshire Fire and Rescue Service in partnership with Kirklees College and The Prince's Trust.

We have adapted the delivery of the programme to be a blended approach of **face-to-face** and **digital**, with a physical folder of work to complete, offering a **Level 1 Qualification in Teamwork, Employability and Communication skills**.

The 'Team' content consists of different activities to gain a qualification such as a socially distanced community project, Covid-considered workplace skills, employability workshops and a teamwork week which includes activities on the fire station as well as outdoor elements. Unfortunately we are unable to offer the overnight residential at the moment.

The key focus is on developing teamwork, communication, confidence and leadership skills that can be transferred into future career aspirations. By working partly alongside active firefighters on an operational fire station, these skills will be enhanced through Fire service practical activities and involvement in community safety, making this a unique and Covid-secure experience.
