# Advocacy leaflet

// Advocacy is about helping and supporting you to get your views across. It is also about helping you to have a say in decisions that affect your life. //

An advocate is a person who can make sure that your wishes and feelings are heard.

**This can be done by:**

- > supporting you at your review
- > meeting you and listening to your problems
- > helping you to make a complaint if you're not happy about something
- > giving you information and advice about your rights

# You have the legal right to an advocate!

If you would like to talk to an advocate then please contact us or ask someone else to do it for you.
